PAPER REVIEWING MODULE MANAGER'S GUIDE

1.1 Manager of the paper reviewing module

The manager of the module can modify all the settings and is responsible for the paper reviewing process. He creates the reviewing team and assigns contributions to the team. If you are a manager of the Paper Reviewing you can access it by clicking on the `Manage Paper Reviewing` link, after you are logged in (see the following figure).

1.2 Paper reviewing management

1.2.1 Set up the module

The first step is to choose the type of paper reviewing for your conference:

- *No reviewing*: no use of the reviewing module
- *Content reviewing*: paper's content will be checked only by the content reviewers
- *Layout reviewing*: paper's layout will be checked only by the layout reviewers
- *Content and layout reviewing*: both of the previous points

The second step is setting up the options depending on the type of reviewing you have chosen:

Options for content reviewing mode

- There are three statuses by default. You can add your own statuses that will be proposed to the content reviewers, when they have to give opinions about the paper's content, and to the referee when he has to give a judgement.

- There is also a way to add reviewing questions in order to help content reviewers and referees give their judgement for the paper's content. The referee will be able to see the content reviewers' answers and this will help him with the final judgement.

Options for layout reviewing mode

- You can add questions in order to help layout reviewers to give their judgment. These questions are visible when they have to judge the paper. This will guide them to follow the layout criteria given by you (see figure as example).

Options for content and layout reviewing mode

- You can set up all the options in the previous two sections - 2.1.2.1.1 / 2.1.2.1.2.
- You can set due dates for the reviewing team to give their judgments. They will not be able to judge the papers after the deadline. These default dates apply only for a new contribution.

1.2.2 Assign team

Assign managers

The managers of the paper reviewing will be responsible for the reviewing part of the conference. Their responsibility will be to designate referees, layout and content reviewers who will be responsible for paper reviewing and editing. The reviewing manager will be able to set up the options for the reviewing module, to specify the team's competences and to assign contributions to the referees and reviewers. You can add paper review manager after accessing the [Team](#) tab.

Assign reviewers

You can create lists of referees, layout reviewers and content reviewers.

When you add a user to be a referee, you are giving him the rights to assign contributions to the layout and content reviewers. Also, the referee has to give the final judgement for the contribution - to be corrected, accepted or rejected. If the contribution status is given to be corrected, then the referee will be able to correct it by himself if necessary.

The layout reviewer has to judge the editing part of the contributions. He will be able to access only the contributions that are assigned to him for judgement. When layout reviewing mode is chosen, he will have to give the final judgement of the contribution. If needed the layout reviewer can correct the papers by himself.

The content reviewers have to give their opinion of the content of the contribution. They will have access only to the contributions that are assigned to them.

1.2.4 Assign papers to the reviewers

You can assign papers by clicking on the link: `Assign papers` (see the figure below).

The paper reviewing module gives you the opportunity to assign more than one paper to the same reviewers by selecting them using the check boxes. Depending on the chosen reviewing mode you need to assign different teams of reviewers (see section 2.1.2.1).

When you click `Assign`, a dialogue will appear. Use the dialogue popup to select the reviewer you wish to assign. If there are defined competences for him, they will be shown next to his name.

If the paper reviewing mode is “Content reviewing” or “Content and Layout Reviewing”, the referees you choose will be the responsables for assigning layout and content reviewers to this contribution. The referee has also to give the final judgment for the contribution - to be corrected, accepted or rejected and to correct it by himself if necessary.

If you have chosen “Layout Reviewing” the layout reviewer should give the final judgement for the contributions.
