Chapter 1. Categories

1.1. Category

A category is a means to group your events or other categories together. In InDiCo 'Home' is the top level category in which you start from. Inside a category you can add events or other subcategories, set access rights to say who can access or modify, re-allocate the sub-categories, remove the sub-categories and also delete the current category and everything it has inside it. These features are accessible through 'modify' (if you have modification rights) on the Tools menu inside the category. You will then be in the Management Area for Category.

1.2. Creating a Category

From the Management Area you can create a new category you will need to have an administrators account or be listed in the modification list (See Access Control) for the category. Inside the main tab (See Main) in the management area you have the option to 'add sub-category' from there you will need to fill in details for the new category. Your new category will then be created.

The screenshot shows a web-based interface for creating a new sub-category. The window has a title bar with 'Category' and 'Home' with a small icon. Below the title bar is a tabbed interface with 'Main', 'Access Control', and 'Tools'. The 'Main' tab is selected. The main content area is titled 'Creation of a new sub-category'. It contains a form with the following fields: 'Name' (a text input field), 'Description' (a large text area), 'Default lectures style' (a dropdown menu with 'Lecture' selected), and 'Default meetings style' (a dropdown menu with 'InDiCo style' selected). At the bottom of the form are 'ok' and 'cancel' buttons.

1.3. Category Management Area

1.3.1. Main

From the main tab in the Category Management Area:

You can modify the details of the category; including the default styles for meetings and lectures within the category (See Meetings or Lectures). You can also add, remove and re-allocate events or sub categories.

1.3.2. Access Control

From the management area you can protect your category using the 3 controls for access levels: Modification Control, Access Control and Domain Control. You can add Users or Groups to the Modification and Access Control lists.

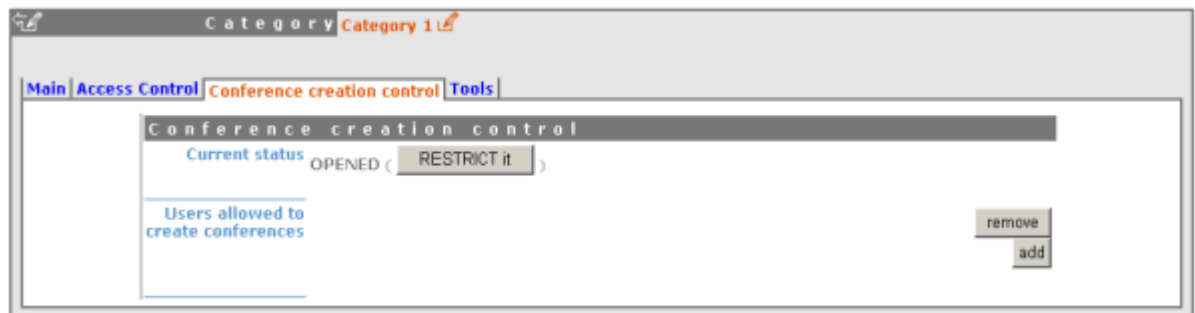

Modification Control Category Managers can be added to a category to allow access to the management area for modification. Category managers are either those listed in the modification control list, or administrators. The creator of a category will be able to modify it without be listed.

Access Control A category can be public or private; Public: Any body can view a public category and any user can add events to it. However users will only be able to see the events inside the category to which they have access to. Private: Only those users in the access list or administrators can access the category and add events. When a Category is made private, the option for domain control is omitted and any event or category made inside will also be private. The category will be displayed with "(protected)" after its name to show it is private.

Domain Control - Access to a category can be defined by IP addresses in a domain. A domain needs to be created from the Admin tab of the Tools menu before you can add them to the access list.

1.3.3. Conference Creation Tool

In categories other than 'Home' you have a tab called 'Conference Creation Tool', from here you can restrict who is able to add events to the category. If you restrict it then you need to add users to the list to allow them to add events.

1.3.4. Detail Modification & Sub-Category/Event Organisation

The details of a Category can be modified and sub categories can be organised from the main tab in the management area. Details can be modified by clicking on modify inside the main tab. Sub-categories and events can be organised in the particular order you wish to view them by using the order drop down box next to each sub-category.

The screenshot shows a web interface for managing categories. On the left, there is a link labeled "Contents". In the center, there is a list of sub-categories. Each entry consists of a checkbox, a dropdown menu showing a number, and the name of the sub-category. The first entry is "Sub Category 1" with a dropdown showing "1". The second entry is "Sub Category 2" with a dropdown showing "2". On the right side of the interface, there are three buttons stacked vertically: "remove", "re-allocate", and "add subcateg".

Checkbox	Dropdown	Sub Category
<input type="checkbox"/>	1	Sub Category 1
<input type="checkbox"/>	2	Sub Category 2

remove
re-allocate
add subcateg

You can re-allocate a sub-category or event by selecting the one you wish to move using the tick box and clicking on re-allocate, you will then be asked where you would like to reallocate this sub-category/event to. To remove a sub-category or an and anything it contains or an event select it and click remove, if it contains anything you will be asked if you are sure you want to delete.

1.3.5. Deleting a Category

To delete the current category you are in you can go to the Tools tab in the management area and select 'Delete this category' you will be asked to confirm the deletion first.

Chapter 2. Conferences

2.1. Conference

A conference is the most comprehensive event in InDiCo. You can create tracks in which you can call for abstracts to be submitted; these abstracts can then be accepted and become contributions in your conference. A timetable can be created which can include many sessions; these sessions can be split into slots if you need to further divide the session. The sessions and slots can contain contributions or you can directly have a contribution in the timetable. Contributions can have sub contributions. Material for example papers can be added to these contributions, sub contributions, sessions and directly to the conference.

2.2. Creating a Conference

If a category is public or you have access rights to it you can create a conference in this category. To do this click on 'Conference' under Add Event you will be presented with a form in which you need to fill with the details of the conference you wish to create. Once this is done your conference will be created. The creator of this conference will by default have modification rights to it and is referred to as a Conference Manager as is anyone else listed in the modification access control list.

To access the Management Area of a conference you need to click on the modification icon next to the Conference Name.

2.3. Setting up a Conference

Once your conference is created the Conference Manager can start setting up the conference from the Management Area -

- Set up your Access Control to restrict or allow users the rights to access or modify the conference.(See Access Control Management).
- Start adding Tracks to your conference to define areas to help with organisation, a Track Manager can be assigned to each track to co-ordinate which abstracts to accept into these tracks (See Program Management).
- Start calling for abstracts. Abstracts are proposed contributions to your conference. By default when you first create a conference calling for Abstracts is disabled. You can enable this in 'Abstracts' (See Abstracts Management)
- Start looking at which submitted Abstracts you wish to accept into your conference, they will then become contributions (see Contributions Management).

- Start setting up a Timetable to organise what will be happening where and what contributions, materials etc will be included (See Timetable Management).
- Look at customising the look of your conference when users come to view it (See Display Management)
- If those that will attend your conference need to register and give details concerning their needs while at the conference, you can set up a registration Form (See Registration Management)
- There are options to make offline versions of your conference, to clone your conference and to perform other tasks on the whole of your conference once you have one set up. (See Conference Tools).

2.4. Conference Management Area

The Management Area allows you to control the different parts of your conference the following sections will show each area of the Conference Management.

The frames surrounding each management area, give you access to either the modification area above or to a display of that area.

Clicking on the left hand icon  will take you to the Display area for the area you are on, e.g. contribution (See Contribution Display).

Clicking on the name of the event or contribution etc will take you directly to the management area for the event / contribution.

2.4.1. Main Management

From within the Main Tab you can (Some parts of the screen may not be visible in the pictures):

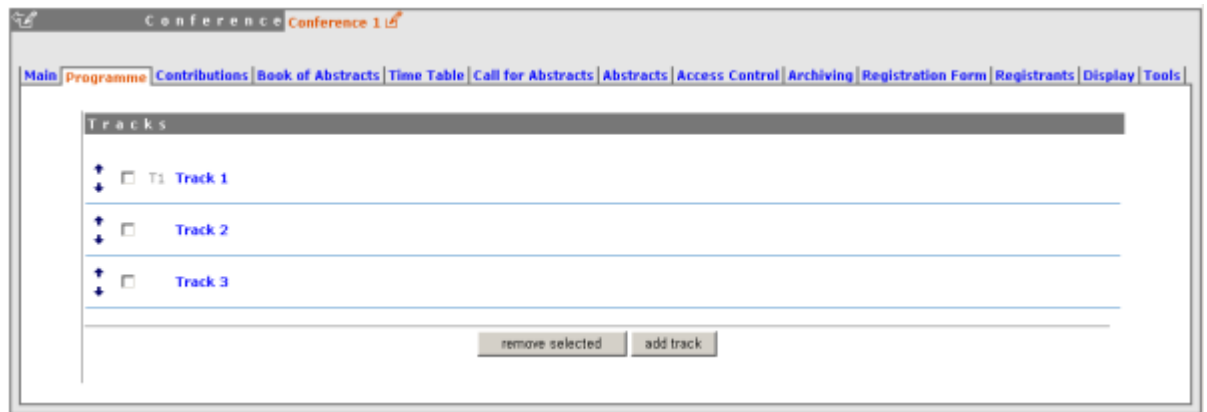

- Modify the general information of the conference, e.g. name, Description, dates etc. The Support email if you supply one will be the support email linked from the bottom of the Display Menu , in the Conference Display Area (See Conference Display).

- Add or remove chairpersons to/from the conference
- Add or remove Material (See Material)
- Create a type of contribution for your conference, for example, oral presentation. This contribution type can be chosen for any abstracts or contributions added to the conference.
- Close the conference from the status area which means it is over, it cannot be accessed by anyone once it has been closed.

2.4.2. Program Management

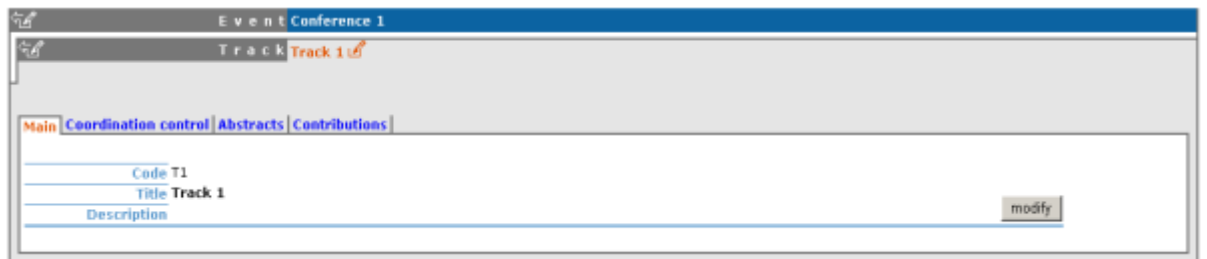

From the program tab you can add / remove tracks and access each of the tracks (See Tracks below)

2.4.2.1. Tracks

Tracks are parts of the conference in which abstracts and contributions can belong to. Inside those tracks you can do the following things:

- Main - Modify the Code; a code can be used if you prefer to use codes as apposed to using long titles. The Title and the description can also be modified.

- Coordination Control - Assign 'Track Manager(s)' to the track who can decide what is accepted into their track. A Track Manager does not have modification access to the rest of the conference, they have access only to the modification of their Track.

- Abstracts - Show any abstracts which have been submitted into the track, the Track manager can then propose to accept or reject it. Only the Conference Manager can have the final say in whether an abstract is accepted / rejected. (See Abstracts Management)
- Contributions - Show any contributions that belong to that track (See Contributions)

2.4.3. Contribution Management

The Contributions Tab shows all the contributions in the conference these may have come from either accepted abstracts or added by the conference managers.

Found contributions (1)

id	date	type	title	presenter	session	track	status	material
<input type="checkbox"/> 0	2005-Jan-28 09:05		Contribution 1		S1		S	

From the contributions tab you can:

- Create new contributions
- Access Contributions (See Contributions).
- Search for certain contributions
- Move contributions
- Create a PDF of contributions
- Show the authors of contributions
- Create a zip file of material from contributions

- Create a zip file of all the proceedings.

2.4.3.1. Contributions

Each contribution has its own management area, (Some parts of the screen may not be visible in the pictures).

From inside the Main tab you can:

The screenshot shows a web application interface for managing conference contributions. The main window is titled 'Event Conference 1'. Inside, there's a tabbed interface with 'Contribution Contribution 1' selected. The 'Main' tab is active, displaying a form for editing the contribution. The form includes fields for Contribution ID (12), Title (Contribution 1), Description, Place (Conference Place, Room: Conference Room 2), Date/time, Duration (00h00'), Type, Track (--none--), Session (Session 1), Primary authors, Co-authors, and Presenters. On the right side of the form, there are several action buttons: 'modify' for the main details, 'change' for Track and Session, and 'remove', 'to co-author', 'new', 'to primary', and 'remove' for the authors and presenters sections.

- Modify the main details of the contribution for example, name, duration etc.
- Change which track this contribution is assigned to.
- Change which session this contributions is included in (See Timetable Management).
- Add / change authors and co-authors.
- Add / change the presenters of the contribution.
- Add Material to the contribution and access the material (see material).
- Withdraw the contribution from the Conference.

From the subcontributions Tab you can:

- Add / Remove a sub contribution.
- Change the order of sub contributions by using the drop down priorities.
- Access each sub contribution (See sub-contributions).

From the Access Control Tab you can:

- List the users that can submit material into the contributions (See Material).
- List the users that can Modify the contributions

- Make the contribution Public or Private: *Public*: Any user can view the contributions. *Private*: Only users listed in the access / modification / submission control can access the contribution.
- List the domains that can access the contribution (only available if contribution is public)

From the Tools tab you can:

- Delete the Contribution
- Move the Contribution
- Write the minutes for the contribution, these will be attached to the material for the contribution (see Material).

2.4.3.2. Sub Contributions

Sub Contributions can be added to contributions to organise the contribution further.

From inside each sub contribution you can modify the general details, add or remove presenters and attach material the same as you can for contributions. From the Tools tab in a sub contribution you can delete that sub contribution or write the minutes for it, these will be attached to the material for the sub contribution.

2.4.3.3. Material

Material can be submitted by a user once their abstract has been accepted and made into a contribution. Material can also be added by the Conference Manager into the conference directly, or into a contribution or sub contribution. From inside a contribution, you can add - General Material, Slides, Videos, Minutes or Papers.

Within each of those types you can add files or URL links as the resources for these materials, you can also modify the general details for the material.

When you add a paper, the main resource for that paper will show in the proceedings document you can create from the contributions tab in the conference. For each material access rights can be set, from inside access control you can list those users that can view the material.

2.4.4. Abstracts Management

The abstracts Management in InDiCo is in three parts - Calling for Abstracts, the Abstracts themselves and the Book of Abstracts.

2.4.4.1. Calling for Abstracts

The call for abstracts needs to be enabled first from the 'Call for Abstracts' tab. From here you can set the submission dates and the deadline for any abstract submissions. You can also add any announcements. If you want to allow any users to make submissions after the deadline you can give those users access to do so.

The screenshot shows the 'Call for Abstracts' tab in the InDiCo interface. The interface has a top navigation bar with tabs: Main, Programme, Contributions, Book of Abstracts, Time Table, Call for Abstracts (selected), Abstracts, Access Control, Archiving, Registration Form, Registrants, Display, and Tools. The main content area is titled 'Conference 1' and contains the following sections:

- Current status:** A section with two buttons: 'ENABLED' (selected) and 'DISABLE'.
- Submission start date:** A text field containing 'Friday 28 January 2005'.
- Submission end date:** A text field containing 'Friday 28 January 2005'.
- Modification deadline:** A text field containing 'not specified--'.
- Announcement:** A text area with a 'modify' button to its right.
- Late submission authorised users:** A section with 'remove' and 'add' buttons to its right.
- Notification templates:** A section with 'remove' and 'add' buttons to its right.

2.4.4.1.1. Notification Template

When a user submits an abstract they will receive an email letting them know the abstract has been submitted successfully. You can customise this email by adding your own Notification Template. If you do not create a notification template a default email will be sent. You can include in this template information about the conference or the abstract for example the conference title, to do this insert

```
%(conference_title)s
```

in place of where you would like the conference title to be. The tags available to put in your template are listed in the 'Available Tags' box.

3	<input type="checkbox"/> Abstract 2		--not specified--	A			25 January 2005

Total : 3 abstract(s)

From the abstracts tab you can add new abstracts, create PDFs of the abstracts, create an XML file of abstracts and get the authors list. You can also access each abstract; an abstract can be in one of 10 states:

- | | | |
|-------------------|----------------|---------------------------|
| (A) Accepted | (R) Rejected | (PR) Proposed Rejection |
| (W) Withdrawn | (M) Merged | (S) Submitted |
| (UR) Under Review | (D) Duplicated | (PA) Proposed Acceptation |
| (C) Conflict | | |

2.4.4.3. Abstracts

An abstract is can be either submitted by a user or manually added by a track manager. Once a abstract is accepted it is automatically changed into a contribution and added to the contributions list in the conference (See Contribution Management).

<< back to the abstract list

The Conference manager from inside Abstract Management can change the status for example by accepting it or marking it as a duplicate.

The main details of the abstract can be modified and the track to which it is associated with can be changed as well as the user that submitted it. Any comments made by the Track Manager or Conference Manager while changing the status of the abstract can be viewed from 'Track judgement'

Track	Judgment	Judged by	Date	Comments
Track 1	Proposed to accept	TURNER, vanessa (cern)	24 January 2005 10:33	proposed to accept comment

Internal comments can be made, and a notification log can also be viewed from inside the abstract management.

2.4.4.4. Book of Abstracts

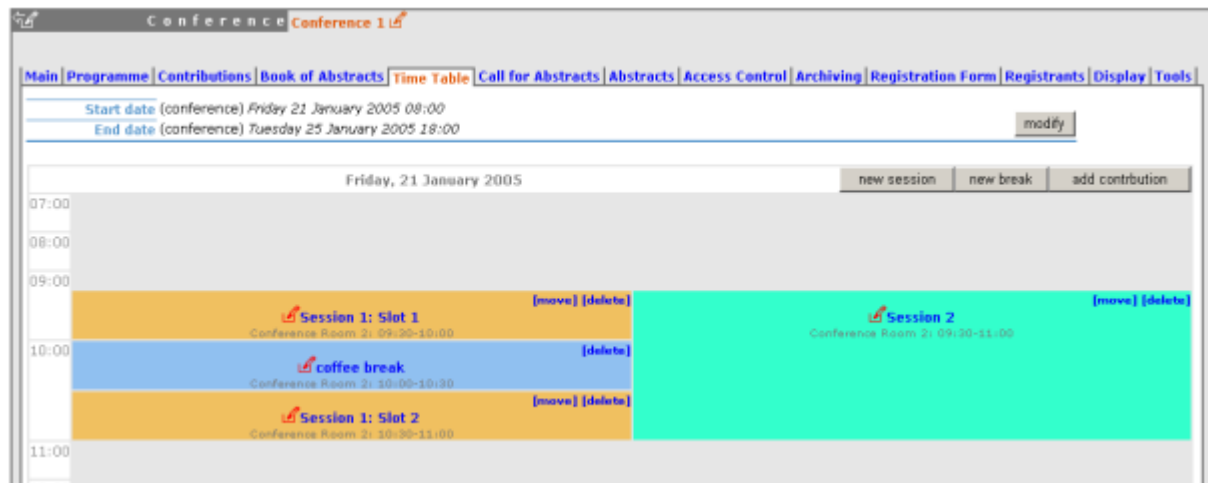

The 'Book of Abstracts' tab lets you add any additional comments that you would like to appear in the book of Abstracts, this is a PDF file which can be generated from the conference display (See Conference Display) containing all the abstracts.

2.4.5. Timetable Management

From the timetable tab in a conference you can organise your conference. When you start with a timetable it will look like this:

The screenshot shows a web-based interface for managing a conference timetable. At the top, there is a navigation bar with tabs: Main, Programme, Contributions, Book of Abstracts, Time Table (highlighted), Call for Abstracts, Abstracts, Access Control, Archiving, Registration Form, Registrants, Display, and Tools. Below the navigation bar, the 'Time Table' section displays the conference dates: 'Start date (conference) Friday 21 January 2005 08:00' and 'End date (conference) Tuesday 25 January 2005 18:00', with a 'modify' button to the right. The main area shows a timetable for 'Friday, 21 January 2005'. On the left, a vertical list of times from 07:00 to 19:00 in one-hour increments is visible. The main body of the timetable is a large, empty grey rectangular area. In the top right corner of this area, there are three buttons: 'new session', 'new break', and 'add contribution'.

You can modify the start and end dates of the timetable, and you can start adding sessions, breaks and contributions to your timetable.

2.4.5.1. Sessions

A session is essentially a time slot to organise your conference with, one way can be to use a session for each track. There can be more than one session happening at once for example different parts of the conference can be happening at the same time but in different rooms. A session can also be split into slots however these are optional, they can be used when the session takes place over more than one period of time, for example you may have a morning slot then a break and then an afternoon slot within a session or one day you have a session on a particular subject for a couple of hours and then two days later you have another session on that subject, this can be done using slots.

2.4.5.2. Adding Sessions and Breaks to Timetable

To add a session to your timetable, use the 'new session' button at the top of the timetable, this will present you with a form to fill in with the details of your session.

submit cancel

You can use the 'update parent's dates' option if you need to change the times of the timetable to accommodate your session times.

Once the session is created it will appear in your timetable. The same procedure is followed to add a break by using the 'new break' option. You can then modify the session by clicking on the session name this will take you to the timetable tab within the session (see Session Management). If you just want to quickly change the location or time of an entry in the timetable you can use the modification icon next to the name.

2.4.5.3. Adding Contributions to Timetable

To add a contribution to your timetable use the 'add contribution' option this will take you to a screen where you can select the contribution(s) you want to add.

The screenshot shows the 'Adding contributions' window. At the top, there's a navigation bar with tabs: Main, Programme, Contributions, Book of Abstracts, Time Table, Call for Abstracts, Abstracts, Access Control, Archiving, Registration Form, Registrants, Display, Tools. The 'Time Table' tab is active. Below the navigation bar, the window title is 'Adding contributions'. There's a text input field for 'Contribution ids to be added'. Below that, a section titled 'Selected contributions from the following list' contains three checkboxes: ☐ 8 [] Contribution 1, ☐ 9 [] Contribution 2, and ☐ 11 [] Contribution 3. At the bottom right, there are 'submit' and 'cancel' buttons.

Once the contribution is added to your timetable you can click on the contribution name to edit the time and duration of it within the timetable.

The screenshot shows the 'Time Table' window. At the top, there's a navigation bar with tabs: Main, Programme, Contributions, Book of Abstracts, Time Table, Call for Abstracts, Abstracts, Access Control, Archiving, Registration Form, Registrants, Display, Tools. The 'Time Table' tab is active. Below the navigation bar, the window title is 'Time Table'. There's a section for 'Start date (conference) Friday 21 January 2005 00:00' and 'End date (conference) Tuesday 25 January 2005 18:00' with a 'modify' button. Below this, there's a timeline for 'Friday, 21 January 2005'. The timeline shows several sessions: 'Session 1: Slot 1' (09:00-10:00), 'Coffee break' (10:00-10:30), 'Session 1: Slot 2' (10:30-11:00), and 'Session 2' (09:00-11:00). Each session block has '[move]' and '[delete]' buttons. At the bottom, there's a contribution block labeled '[8] Contribution 1' with a '[remove]' button. On the right side of the timeline, there are buttons for 'new session', 'new break', and 'add contribution'.

You can remove sessions, breaks and contributions by clicking on remove / delete in the top right corner of each block. You can also move sessions to another starting date / time if needed.

2.4.5.4. Session Management

From the timetable tab in Session you can: Add slots to the session, Edit slots inside the session, Delete slots inside the session, Add breaks and Add contributions.

2.4.5.4.1. Slots

A session can be split into slots (See Adding Slots to Session) however these are optional, they can be

used when the session takes place over more than one period of time. A session is defaulted to having one slot already when it is created.

2.4.5.4.2. Main Tab

From the main tab in session you can, modify the general session information, add conveners and add material.

2.4.5.4.3. Contributions Tab

From the contributions tab you can see all the contributions that are part of your session. These contributions will only be shown once they have been added (See Adding Contributions to Sessions).

2.4.5.4.4. Access Control

From the Access control tab in session you can set the access rights for modification, access and domain control the same as you can for most of the conference; the only difference is the Co-ordination control in which you can assign someone to be the co-ordinator which means they can add and remove contributions and breaks to that particular session.

2.4.5.4.5. Tools Tab

From the Tools tab in session you can delete that session or write minutes for the session.

2.4.5.4.6. Adding Slots to Session

To add a slot use the 'new slot' option this will take you to a form to fill in which will create your slot. When you need to edit a slot use the 'edit slot' this will take you to a screen with the options to change times, titles etc.

Start date: 21/1/2005 9:30 ☐ Update parents dates

End date: 21/1/2005 10:00 ☐ Move entries inside slot

Contribution duration:

Conveners:

You also have the option to update the parent dates or to move the entries inside the slot. Update Parent Dates allows you to update the session times if the slot will be outside the sessions original times. The Move entries option means if for example you choose to make the slot an hour earlier, you can either leave the contributions / breaks as they are or you can tick the box and move all the entries an hour earlier too.

These slots will appear in the main conference timetable like this:

2.4.5.4.7. Adding Contributions to Sessions

To add contributions to a session you first need to import them from the main conference, to do this use the 'contribution tab' inside the session:

Event Conference 1

Once you have selected the contributions they will appear inside the contributions tab in the session. You

can then use the 'add contribution' option from the session and select from the contributions you imported. When you have added a contribution to your session/slot you can edit the times and duration by clicking on the contribution name.

2.4.6. Access Control Management

Access Control in a conference is similar to that in a Category. There is Modification control, Domain Control and Access Control. When adding to the Access and Modification lists, you can also add Groups of users if any have been defined by Administration.

Modification Control Only the managers listed in the modification control, the creator of the conference and any administrators can access the Management Area of the conference. However you can add a Modification Key which means anyone with this key can modify the conference without logging in.

Access Control When the conference is public - Anyone can view the conference including the programme, timetable, abstracts etc. When the conference is private - Only those in the access list, conference managers and administrators can view the conference.

This event is protected with an access key.

Please enter it here:

Powered by [INDICO](#) | support@support.com

When private you can also add an Access Key which means anyone with this key can access the conference without logging in.

Domain Control This is not available when the conference is private, but when it is available it allows you to specify which IP addresses can access the conference.

2.4.7. Registration Management

You may wish to have some kind of registration process for those attending your conference in which you can give the registrants options of accommodation or any specific needs. The Registration Management comes in two parts - the Registration Form and the Registrants.

2.4.7.1. Registration Form

From the Registration Form tab you are able to firstly, enable or disable the Registration. You can also modify the start/end dates of registration, the maximum number of registrants you will take, any announcements and if you want to send email notifications to people when a new registrant applies.

The screenshot shows the 'Registration Form' tab for 'Conference 1'. The 'Current status' is 'ENABLED'. The 'Registration start date' and 'Registration end date' are both 'Tuesday 15 February 2005'. The 'Title' is 'Registration Form'. The 'Max No. of Registrants' is '100'. The 'Notification (new registrations)' section has 'To list: --no TO list--' and 'CC List: --no CC list--'. Below this, there is a 'modify' button. The 'Sections of the form' section lists five items: 'Reason for participation', 'Sessions', 'Accommodation', 'Social Events', and 'Further information', each with a green square icon indicating it is enabled.

You can choose which forms you wish to use for your registrants see the forms listed below, to enable or disable one of these forms, click on the  image next to that form, when it is red it is disabled and green for enabled. Clicking on the form name will let you modify the form to allow the registrants to enter the information you need (See Registration Area).

2.4.7.1.1. Reason for Participation

The Reason for participation form allows you to ask the registrant why they want to participate, from this form you can modify the question and title of the form.

The screenshot shows the 'Reason for participation' form configuration page. The 'Title' is 'Reason for participation'. The 'Description' is 'Please, let us know why you are interested on participate in our event:'. There is a 'modify' button at the bottom right.

2.4.7.1.2. Sessions

The Sessions form allows you to add which sessions from your conference you would like people to register for, from the form you can also change the title and description.

The screenshot shows a web interface for 'Event Conference 1'. The main heading is 'Sessions'. Below it, there's a 'Main' section with a 'Title' field containing 'Sessions' and a 'Description' field. To the right of the description is a 'modify' button. Below the description is a 'Sessions' section with a list of sessions, currently showing 'Session 1'. To the right of the list are 'remove' and 'add' buttons.

2.4.7.1.3. Accommodation

The Accommodation form lets you add or remove the different types of accommodation you can book your registrants into or give them the choice to book their own.

The screenshot shows a web interface for 'Event Conference 1'. The main heading is 'Accommodation'. Below it, there's a 'Main' section with a 'Title' field containing 'Accommodation' and a 'Description' field. To the right of the description is a 'modify' button. Below the description is an 'Accommodation types' section with a list of types, currently showing 'CERN Hostel', 'I prefer to book a room in a Geneva hotel', and 'I will arrange my own accommodation'. To the right of the list are 'remove' and 'add' buttons.

2.4.7.1.4. Social Events

The Social Events form allows you to add / remove any social events that registrants can register on, when you add an event you add the title you wish this event to have.

The screenshot shows a web interface for 'Event Conference 1'. The 'Social Events' tab is active. The 'Main' section contains a form with the following fields:

- Title:** Social Events
- Description:** (empty text area)
- Social event entries:** (empty list area)

On the right side of the form, there are three buttons: 'modify', 'remove', and 'add'.

2.4.7.1.5. Further Information

The Further Information form gives you the opportunity to add any additional information for the registrants.

The screenshot shows a web interface for 'Event Conference 1'. The 'Further Information' tab is active. The 'Main' section contains a form with the following fields:

- Title:** Further information
- Content:** Content of Further Information

On the right side of the form, there is a 'modify' button.

2.4.7.2. Registrants

The Registrants Tab will show a list of all the registrants that have registered for your conference.

The screenshot shows a web interface for 'Conference 1'. The 'Registrants' tab is active. The 'Main' section displays a table of current registrants:

Current registrants (1)						
	name	institution	email	phone	city	country
<input type="checkbox"/>	ADMIN, account	CERN	admin			CH

Below the table, there is a 'remove selected' button.

Clicking on the registrants name will show you all their details and the information they provided in response to the form's questions.

Reason for participation I am interested in your event because ...

Sessions First Priority: Session 1
Other option: -- not selected --

Accommodation Arrival date: 14-February-2005
Departure date: 14-February-2005
Accommodation type: I will arrange my own accommodation

Social events -- no social events selected --

2.4.8. Display Management

The display area allows you to customise your conference, you can customise the menu that will be shown in the conference display (See Conference Display), change the colours of the conference background / text and you can add a logo to your conference.

2.4.8.1. Display Menu Customisation

The menu customisation allows you to activate or disable menu items and move them up or down the list. You may add your own external links or just customise the already existing system links.

You can also add external links to your menu by using the 'add link' option.

The screenshot shows the 'Conference 1' interface with a sidebar menu on the left containing options like 'Call for Abstracts', 'Submit a new abstract', 'View my abstracts', 'Author index', 'Overview', 'Contribution List', 'My conference', 'My sessions', 'My tracks', 'My contributions', and 'Registration Form'. The main content area is titled 'Create external link' and contains two input fields: 'Name' and 'URL'. Below these fields are 'save' and 'cancel' buttons.

If you want to add spaces between items in your menu you can use the 'add space' option.

The screenshot shows the 'Conference 1' interface with the 'Menu Display' section selected in the sidebar. The main content area is titled 'Spacer' and contains a 'Name' field with the value 'spacer 20'. Below the name field are 'Status' (with 'Activated' and 'Disable' buttons) and 'Position' (with 'move up the spacer' and 'move down the spacer' buttons). At the bottom is a 'remove this spacer' button.

2.4.8.2. Colour Customisation

You can change the background colour of the conference by using the 'title background colour' option.

The screenshot shows the 'Customization of conference display' form. It has two sections: 'Title background color' and 'Title text color'. The 'Title background color' section has a 'Color' field with the value '#034173' and a 'modify color' button. To the right of the color field is a small blue rectangular preview box.

The same can be done for the text colour by using the 'title text colour' option.

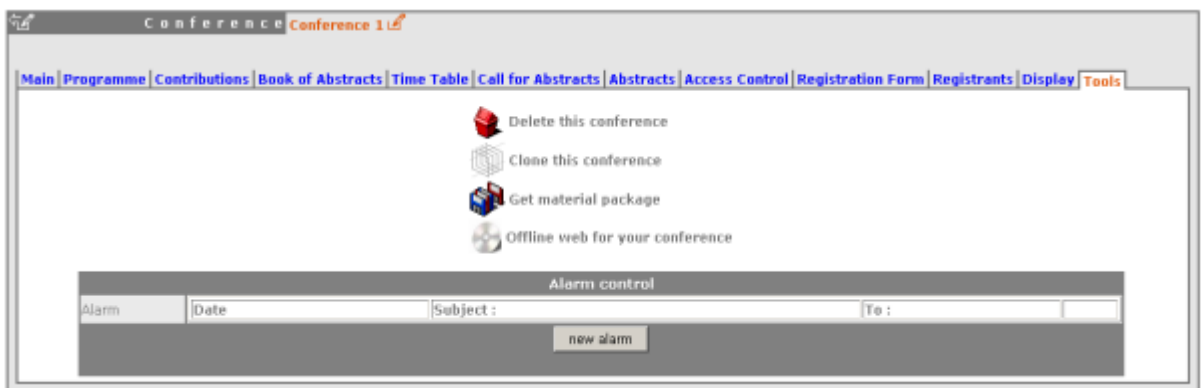

2.4.8.3. Logo Customisation

If you want to add your own logo to the conference display you can add it from the logo area in display. You can browse for you logo, save it, and see it in the preview box.

2.4.9. Conference Tools

The conference Tools allow you to make certain actions on the whole of the conference.

2.4.9.1. Deleting a Conference

The delete conference option will delete the whole conference. You will be asked to confirm deletion first.

2.4.9.2. Cloning a Conference

Clone the conference if you would like to make another conference the same, you have the option to clone it just once, at fixed intervals or on certain dates.

Conference **Conference 1**

Main Programme Contributions Book of Abstracts Time Table Call for Abstracts Abstracts Access Control Registration Form Registrants Display Tools

Clone the conference : Conference 1

Clone the conference only once at the specified date:

once: 01 January 1995

Clone the conference with a fixed interval:

every: 1 day(s)

starting: 01 January 1995

☒ until: 01 January 1995 (inclusive) ☐ 1 time(s)

Clone the agenda on given days:

on the: first Monday every 1 month(s)

starting: 01 January 1995

☒ until: 01 January 1995 (inclusive) ☐ 1 time(s)

2.4.9.3. Packaging Material

Using the 'Get material package' option you can create a package of all the materials that have been used in the conference.

The screenshot shows the 'Get package' tool within the 'Conference 1' interface. The tool has a navigation bar with links: Main, Programme, Contributions, Book of Abstracts, Time Table, Call for Abstracts, Abstracts, Access Control, Registration Form, Registrants, Display, and Tools. The 'Get package' tool is active, displaying the following options:

- Contributions scheduled on:**
 - ☒ 21 January 2005
 - ☒ 22 January 2005
 - ☒ 23 January 2005
 - ☒ 24 January 2005
 - ☒ 25 January 2005
- Material type:**
 - ☒ Papers
 - ☒ Slides
- Main Resource:**
 - ☐ Get only main resources from each material
- Get material...**
 - from dd - mm - yyyy until now

At the bottom, there are two buttons: 'get package' and '<< back to tools'.

2.4.9.4. Create an Offline version of a Conference

Using the 'Offline web for your conference' option you can create a copy of your conference that can be used offline for example if you wish to store your conference to a dvd.

The screenshot shows the 'Offline website' tool within the 'Conference 1' interface. The tool has a navigation bar with links: Main, Programme, Contributions, Book of Abstracts, Time Table, Call for Abstracts, Abstracts, Access Control, Registration Form, Registrants, Display, and Tools. The 'Offline website' tool is active, displaying the following message:

Offline website request received. Shortly, you will receive an email notifying you that the offline website is completed. Please, do not apply for the creation several times. Thank you for your patience, please wait for the result. If you have any doubts you can contact [InDiCo support](#).

At the bottom, there is a button: '<< BACK TO TOOLS'.

2.4.9.5. Alarm Control

You can set an an alarm / reminder to alert people about the conference, the alert will be in the form of an email.

This Conference Management Area explained can only be accessed by Administrators or Conference Managers.

2.5. Conference Display Area

The conference Display is the view that users of the conference will see. If the conference is public they will not need to login to view the conference. It is also the area in which you can access the modification areas if you have access rights. The different areas of the conference can be seen using the left hand Display Menu. This menu may be different if the Conference Manager has customised the menu. When a conference is accessed the 'Overview' area is shown first;

2.5.1. Navigating the Conference Display Area

Various parts of the conference display are always present in order for you to navigate or view the display area:

This is placed at the top left of the display view and will take you back to the top level home category

support This will be underneath the display menu and enables you to email the event support if conference management have entered one

| support@support.com | This is placed at the bottom of all indico screens and enables you to email the administrator if the administrator has entered the address.

 This is on the top of the display menu and enables you close the view of the menu.

 This is placed at the top right of the screen and is the access for logging in or out

Home > Call for Abstracts The navigation bar, shows you where you are in the conference and allows to back step through.

2.5.2. Overview Area

The Overview area shows the main details of the conference including any material that is included and the date and location of the conference.

When an administrator or Conference Manager is logged in there will be a modification icon next to the conference title for access to the modification area.

2.5.3. Calling for Abstracts Area

The call for abstracts view will show the range of dates in which an abstract can be submitted

Conference 1

15-20 February 2005 Conference Room

You can access the display of each contribution by clicking on its name. You can also create a PDF of either selected contributions or all of them.

2.5.5.1. Contribution Display

In the contribution display you can see all the details of the contribution, including the description, the author, the session (if any) that it is included in, any material (See contribution material display) it has and any sub contributions that belong to it. You can also access those details by clicking on their names. You can also print the contribution in PDF, XML or ICal format by using the icons in the top right hand corner.

Home > Contribution details

Contribution 1

Description of Contribution 1

Id: 0
Place: Conference Room
Starting date: 15-Feb-2005 09:00
Duration: 20'
Primary Authors: **AUTHOR, 1**
Material: [XML] Video

Included in session: **Session 1**
Included in track: Track 1

Sub-contributions: **Sub Contribution 1**

If you have modification rights you will have the modification icon next to the print formats and you can access the contribution modification area.

2.5.5.1.1. Contribution Material Display

The material that belongs to a contribution can be viewed by accessing the material in the contribution display. From the material display you can see the resources attached, and which contribution this material belongs to.

When you first open the material display, if there is only one resource attached, that resource will be opened e.g. If you have just the one link attached as a resource, when you access the material display the url for that link will be opened.

2.5.6. My Conference Area

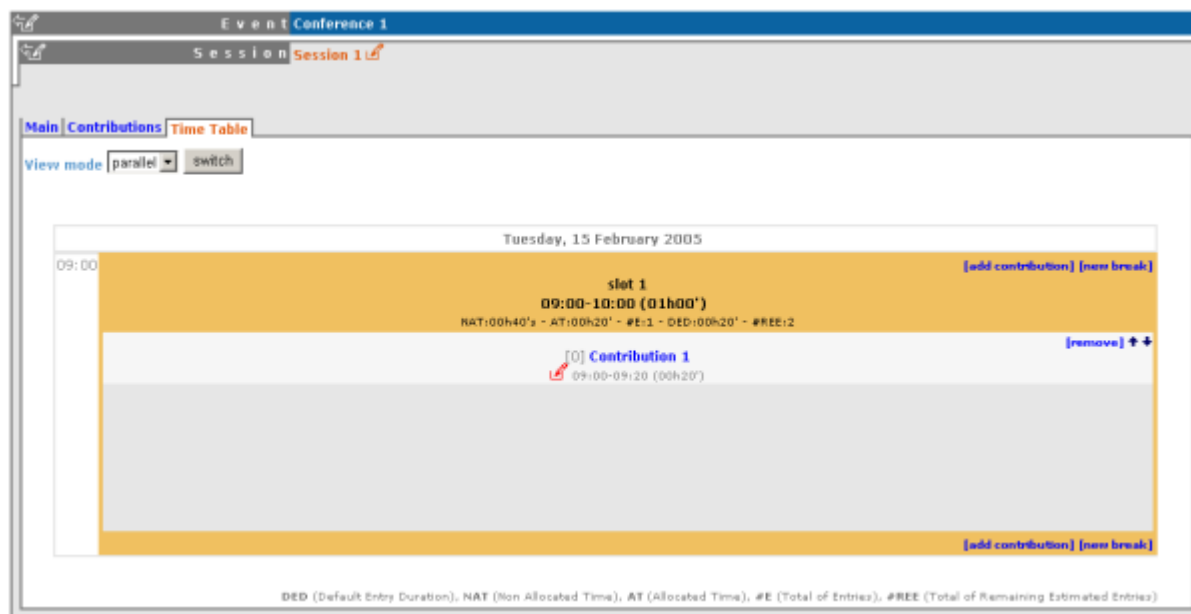

The 'My Conference' area gives you access to those areas you have Co-ordinator modification rights to. For example if you are a Track co-ordinator or a Session co-coordinator those tracks or sessions will appear under my conference.

From here you can access your Tracks Modification (See Tracks) or Session Modification (See My Conference - Session Co-ordination) by using the modification icon on the left of the title.

2.5.6.1. My Conference - Session Co-ordination

The session Modification accessible from 'My Conference' is slightly different from the Main Session Modification as you are restricted to the Main tab and adding /removing contributions and breaks:

2.5.7. Registration Area

The Registration Area shows you the dates in which you are able to register, the max number of registrants allowed and any contact information.

2.5.7.1. New Registrant

From the new registrant area people can fill in the forms that were chosen and customised from the Registration Management (See Registration Management). The registrant will need to fill in their personal information and anything else in the form that has been asked for.

support	

The menu option which was 'new registrant' will also change to 'Modify my registration'. This will present you with the form you filled in originally and will allow you to change the information you originally provided.

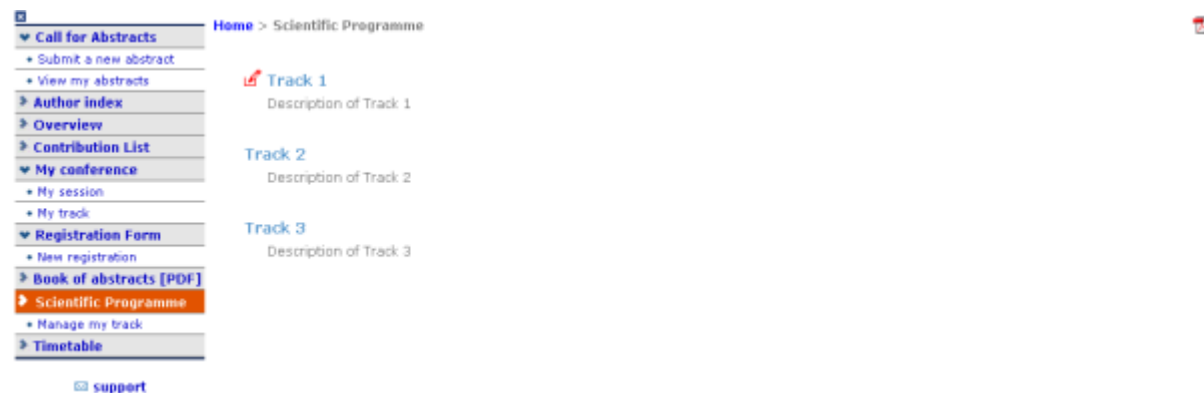

2.5.8. Book of Abstracts

The Book of Abstracts selection in the menu will produce a PDF document of all the accepted abstracts

(abstracts that have become contributions) that are scheduled in the conference. It also shows any contributions that are scheduled.

2.5.9. Scientific Programme Area

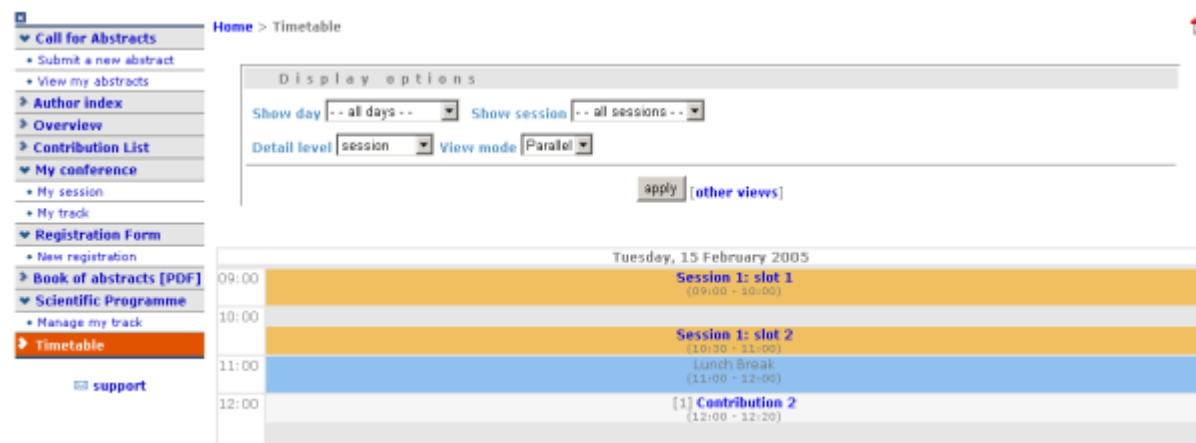

The Scientific Programme shows all the tracks with their descriptions:

You can create a PDF document of all the tracks using the PDF icon in the top right hand corner. If you are a Co-ordinator of any tracks, you will have the modification logo next to that track and a 'Manage my Track' option in the menu as in the picture above.

2.5.10. Timetable Area

The Timetable area shows all the session/slots, contributions and breaks for the conference. You can access each session by clicking on the session name; this will show you any contributions/breaks inside this session.

Clicking on a contribution name will take you to the display view of that contribution (See Contribution Display) You can display the timetable for certain days or sessions and choose the detail level using the display options you can also create a PDF of the timetable by using the icon in the top right hand corner

2.5.10.1. Session View

Session View allows you to see any contributions or breaks within each session:

The screenshot displays the 'Session View' interface. On the left is a sidebar menu with the following items: 'Call for Abstracts' (with sub-items 'Submit a new abstract' and 'View my abstracts'), 'Author index', 'Overview', 'Contribution List', 'My conference' (with sub-items 'My session' and 'My track'), 'Registration Form' (with sub-item 'New registration'), 'Book of abstracts [PDF]', 'Scientific Programme' (with sub-item 'Manage my track'), and 'Timetable'. Below the menu is a 'support' link. The main content area has a breadcrumb trail 'Home > Timetable > Session details' and a 'modification' icon in the top right. The session is titled 'Session 1' with a description 'description of Session 1', location 'Place: Conference Room', and date 'Dates: Tuesday 15 February 2005 09:00'. Below this are tabs for 'Contribution List' and 'Time Table'. The 'Time Table' tab is active, showing a timetable for 'Tuesday, 15 February 2005'. A slot from 09:00 to 09:00 is occupied by '[0] Contribution 1'.

If you are a Session Co-ordinator or a Session Manager you will have the modification icon in the top right hand corner as above, this will take you to the appropriate Modification area for that session. You may also make a PDF of the session.

Chapter 3. Meetings

3.1. Meeting

A Meeting is not as in depth as a Conference and is made for smaller events. Within a meeting you can create a Timetable in which you can directly add Sessions, Slots, Contributions and Breaks. With a meeting you create the contributions as you add them to the timetable. You can set the access Control for the meeting and you have Tools in which you can remove, clone, create offline versions of the meeting and set alarms.

3.2. Creating a Meeting

If you have the correct access rights within a Category you can create a new meeting using the 'Meeting' option in the Tools menu, you will be presented with a form similar to the one you would for a Conference, however you are able to choose the default style in which the Meeting will be displayed (See Meeting Display) when you submit this form the Meeting will be created.

3.3. Meeting Management Area

The Management Area allows you to control the different parts of your meeting the following sections will show each area of the Meeting Management.

The frames surrounding each management area, give you access to either the modification area above or to a display of that area.

Clicking on the left hand icon  will take you to the management display area for the area you are on, e.g. contribution or material etc (See Management Displays).

Clicking on the name of the event or contribution etc will take you directly to the management area for the event / contribution.

3.3.1. Main Management

From the Main tab, you are able to modify the details of the meeting including title, description, location, default style of the display.

The screenshot shows a web application window titled "Meeting Meeting 1". It has a tabbed interface with "Main", "Time Table", "Access Control", and "Tools". The "Main" tab is active, displaying a form for editing meeting details. The form includes the following fields and controls:

- Title:** Meeting 1
- Description:** Description of Meeting 1
- Place:** Meeting Building
- Room:** Meeting Room 1
- Start date:** Tuesday 01 February 2005 08:00
- End date:** Wednesday 02 February 2005 18:00
- Additional info:**
 - Support email:** --not set-- (with a "modify" button)
 - Chairpersons Text:** chairperson Text entered
 - Visibility:** up 999 levels
 - Default style:** InDiCo style
- Chairpersons:** (with a "remove" button)
- Material:** (with a "remove" button)
- Additional material:** (with a dropdown menu and an "add" button)
- Status:** (with a "close" button)

You can also add / remove any chairpersons, add / remove material and close the Meeting, if you close the meeting it can no longer be accessed.

3.3.2. Timetable Management

The timetable management allows you to organise your meeting by using sessions, slots, adding contributions and including breaks. When you first start to organise your meeting the timetable will look like this:

You can modify the times in which the timetable will run between, this can either be the same as the meeting or your own custom times:

You can add a break to your timetable using the 'new break' option you will be presented with a form to fill in with the details of the break you want to add.

3.3.2.1. Adding Contributions

You can directly add Contributions into your timetable using the 'new contribution' option at the top of each day; this will take you to a form to create a new contribution.

The screenshot shows a web application window titled "Meeting 1.0". The main menu includes "Main", "Time Table", "Access Control", and "Tools". The active page is "Creating a new contribution (basic data)". The form contains the following fields and options:

- Title:** A text input field.
- Description:** A large text area.
- Place:**
 - ☒ Same as for the conference:
 - ☐ Define a different one:
 - Name:** A text input field.
 - Address:** A text input field.
- Room:**
 - ☒ Same as for the conference:
 - ☐ Define a different one:
 - Name:** A text input field.
- Board #:** A text input field.
- Starting time:** A time selection field showing "2005-02-01".
- Duration:** A time selection field.
- ☐ update parents dates
- Buttons:** "ok" and "cancel" at the bottom right.

Within this form, you can define the name, description, location, a board number and the starting time with the duration in which you want this contribution to take place. If the contribution you want to add is going to be outside the timetable times, you can tick the 'update parents dates' and this will change the timetable times accordingly.

The screenshot shows the "Time Table" view in the Meeting 1.0 application. The main menu includes "Main", "Time Table", "Access Control", and "Tools". The active page is "Time Table". The view displays the following information:

- Start date:** Tue 01 Feb 2005 08:00 (Same as meeting)
- End date:** Wed 02 Feb 2005 18:00 (Same as meeting)
- modify** button
- Day 1: Tuesday, 01 February 2005**
 - Buttons: new contribution, new session, new break
 - Time slots: 07:00, 08:00, 09:00, 10:00, 11:00, 12:00, 13:00, 14:00, 15:00, 16:00, 17:00, 18:00, 19:00, 20:00, 21:00
 - [0] Contribution 1** (with a red icon) at 09:00-09:30
 - [remove]** button
- Day 2: Wednesday, 02 February 2005**
 - Buttons: new contribution, new session, new break

If you want to change the location or time of the contribution you can use the modification icon on the

left of the contribution, or you can click on the contribution name to go to the full modification area of Contributions (See Contribution Management). You can also remove the contribution from the timetable using the 'remove' option on the right of the contribution name.

3.3.2.2. Adding a Session

To add a session to your timetable you can use the 'new session' option, this will present you with a form to fill in the details of your session:

The screenshot shows a web application window titled 'Meeting 1.5'. The main menu includes 'Main', 'Time Table', 'Access Control', and 'Tools'. The 'Time Table' tab is active, displaying a form titled 'Creating a new session (basic data)'. The form contains the following fields and options:

- Code**: A text input field.
- Title**: A text input field.
- Description**: A large text area.
- Place**:
 - ☒ Same as for the conference:
 - ☐ Define a different one:
 - Name**: A text input field.
 - Address**: A text input field.
- Room**:
 - ☒ Same as for the conference:
 - ☐ Define a different one:
 - Name**: A text input field.
- Start date**: A date picker showing 1/2/2005 9:30.
- End date**: A date picker showing 1/2/2005 10:30.
- Contribution duration**: A time input field showing 0:20.
- Time table type**: A dropdown menu set to 'standard'.
- Color**: A color picker showing #F0C060.
- ☐ update parents dates
- submit** and **cancel** buttons at the bottom.

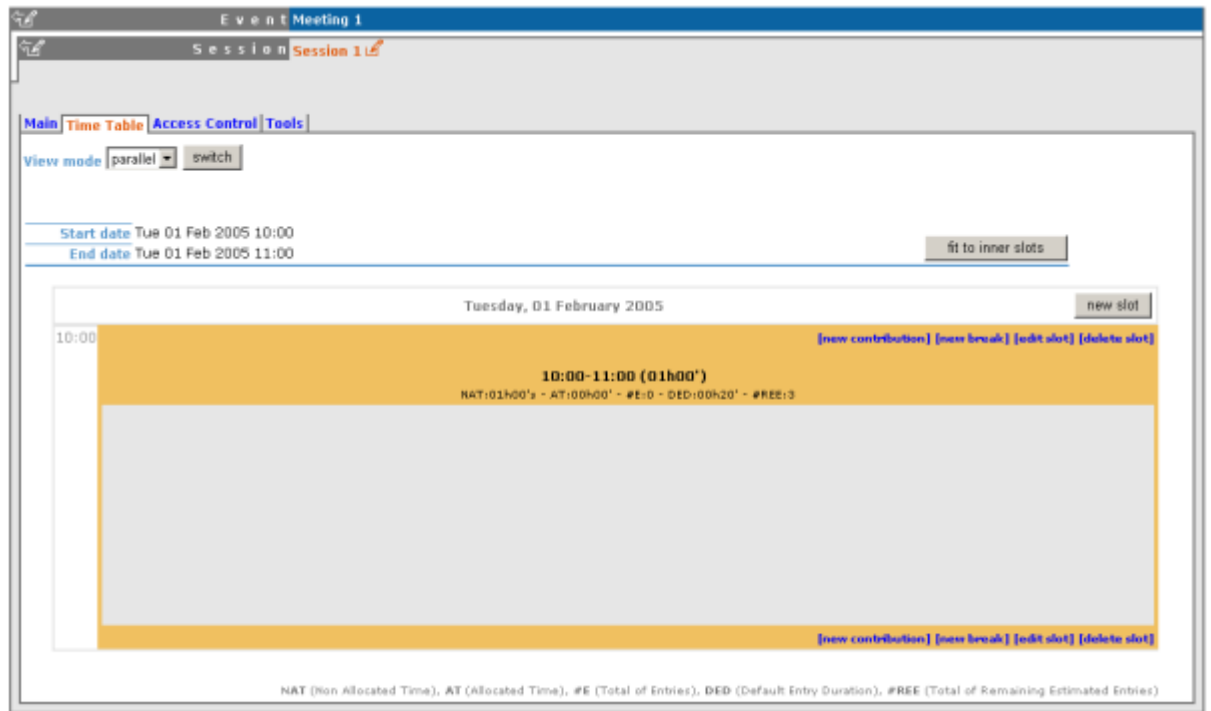

As with the contributions you can choose to update the timetable dates if your session needs to be earlier /later than the timetable is currently, using 'update parents dates'.

Once your session is added to the timetable you can use the modification icon to the left to quickly edit the basic details within the timetable or you can click on the session name and enter the main Session modification area (See Session Management). You can also move or delete the session using the links on the top right of the session block.

3.3.2.3. Session Management

From within session management you can organise each session. You can enter the session modification from the session name inside the Timetable tab within the meeting management area. You are able to add/edit/remove slots, add/remove contributions and add/remove breaks into the session from here. Slots inside a session are optional, they can be used when the session takes place over more than one period of time. When you create a session it is already made with one slot.

The Session management shows the times of the whole session at the top. If you have slot(s) which take up less time as in the picture above, (the session time runs until 12:00 but the slot finishes at 10:00) you can use the 'fit to inner slots' to make the session time start and finish at the same time as the first and last slot.

3.3.2.3.1. Adding Slots to Sessions

To add a slot to a session use the 'add slot' option, this will take you to a form to fill in with the slots details:

The screenshot shows the 'Adding a new slot' form within the 'Event Meeting 1' application. The form is titled 'Adding a new slot' and contains several sections:

- Title:** A text input field.
- Place:** Radio buttons for 'Same as for the session:' (selected) and 'Define a different one:'. Below are 'Name' and 'Address' input fields.
- Room:** Radio buttons for 'Same as for the session:' (selected) and 'Define a different one:'. Below is a 'Name' input field.
- Start date:** A date picker showing '1' / '2' / '2005' / '10' / '0'.
- End date:** A date picker showing '2' / '2' / '2005' / '10' / '0'.
- Default Contribution duration:** Two input fields.
- Conveners:** A list box with buttons 'remove selected convener' and 'new convener'.
- Buttons:** 'submit' and 'cancel' at the bottom.

There is a checkbox labeled 'update parents' next to the start date field.

You can choose to update the sessions using 'update parent's dates' if the slot you are adding is going to be outside the session times.

The screenshot shows the 'Time Table' view for 'Tuesday, 01 February 2005'. The interface includes a header with 'Start date Tue 01 Feb 2005 10:00' and 'End date Tue 01 Feb 2005 12:00', and a 'fit to inner slots' button. The main area displays a timeline with two slots:

- Slot 1:** 10:00-11:00 (01h00'). It includes a 'new slot' button and links for '[new contribution]', '[new break]', '[edit slot]', and '[delete slot]'. Below the slot is a large grey area for contributions.
- Slot 2:** 11:30-12:00 (00h30'). It also includes links for '[new contribution]', '[new break]', '[edit slot]', and '[delete slot]'. Below the slot is a large grey area for contributions.

Each slot has a 'new slot' button in the top right corner of its respective section.

3.3.2.3.2. Adding Contributions to Sessions/Slots

To add a contribution to the session use the 'new contribution' option, this will take you to a form to create the contribution, The form shows the name and time of the session or slot you are adding the contribution to, and you can use the 'update parent's dates' if you need to change the times of the session / slot to accommodate your contribution.

The screenshot shows a web application window titled 'Meeting 1.0'. The main menu includes 'Main', 'Time Table', 'Access Control', and 'Tools'. The active page is 'Creating a new contribution (basic data)'. The form contains the following fields and options:

- Title:** A text input field.
- Description:** A large text area.
- Place:**
 - ☒ Same as for the conference:
 - ☐ Define a different one:
 - Name:** A text input field.
 - Address:** A text input field with a dropdown arrow.
- Room:**
 - ☒ Same as for the conference:
 - ☐ Define a different one:
 - Name:** A text input field.
- Session Name:** Session 1
- Slot Name:** slot 1
- Slot Period:** 10:00 - 11:00
- Starting time:** Two input fields for hours and minutes.
- Duration:** Two input fields for hours and minutes.
- ☐ update parents dates
- Buttons:** 'ok' and 'cancel' at the bottom right.

When the contribution is added to the session or slot you can change the simple details i.e. time, location by using the modification icon to the left, or you can click on the contribution name to go into the main contribution management (See Contribution Management).

3.3.2.3.3. Editing Slots

If you want to edit the slot details, i.e. change the time of the slot you can use the 'edit slot' option this will take you the slot modification screen:

The screenshot shows a web application interface for editing a slot. The top navigation bar includes 'Event Meeting 1' and 'Session Session 1'. Below this, there are tabs for 'Main', 'Time Table', 'Access Control', and 'Tools'. The 'Time Table' tab is active, and the 'Editing a slot' form is displayed. The form has the following fields and options:

- Title:** A text input field containing 'slot 1'.
- Place:** A section with two radio buttons: 'Same as for the session:' (selected) and 'Define a different one:'. Below the second option are 'Name' and 'Address' input fields.
- Room:** A section with two radio buttons: 'Same as for the session:' (selected) and 'Define a different one:'. Below the second option is a 'Name' input field.
- Start date:** A date picker showing '1' for day, '2' for month, and '2005' for year.
- End date:** A date picker showing '1' for day, '2' for month, and '2005' for year.
- Contribution duration:** Two input fields for hours and minutes, currently showing '1' and '0' respectively.
- Conveners:** A section with two buttons: 'remove selected convener' and 'new convener'.
- Update parents dates:** A checkbox that is currently unchecked.
- Move entries inside slot:** A checkbox that is currently unchecked.
- submit** and **cancel** buttons at the bottom.

As before you can update the session times if the slot will be outside the sessions original times, you also have the option to 'move entries inside slot' this means if for example you choose to make the slot an hour earlier, you can either leave the contributions / breaks as they are or you can tick the box and move all the entries an hour earlier too.

3.3.2.4. Contribution Management

You can access the contribution management area by clicking on a contribution name from the timetable, the following sections explain the management area of each contribution.

3.3.2.4.1. Main Tab

The screenshot shows the 'Main' tab of the 'Contribution' window for 'Meeting 1'. The window has a title bar 'Event Meeting 1' and a subtitle bar 'Contribution Contribution 1'. The 'Main' tab is selected, with other tabs being 'Sub Contribution', 'Access Control', and 'Tools'. The main area contains the following fields and controls:

- Contribution ID**: A text input field.
- Title**: 'Contribution 1'.
- Description**: 'Description of Contribution 1'.
- Place**: A text input field.
- Date/time**: 'Tuesday 01 February 2005 09:00'.
- Duration**: '00h30'.
- Type**: A text input field.
- Session**: A dropdown menu showing 'Session 1' with a 'change' button next to it.
- Presenters**: A text input field with a 'remove' button and an 'add' button (with a dropdown arrow) to its right.
- Material**: A text input field with a 'remove' button and an 'Additional material' dropdown menu with an 'add' button to its right.
- withdraw**: A button at the bottom center.

From the main tab you can modify the main details of the contribution - title, description, location etc. You can also change the session it is included in, add / remove presenters or add / remove material (See Material in Contributions).

3.3.2.4.2. Sub Contribution Tab

From the sub Contribution Tab you can add/remove sub contributions:

The screenshot shows the 'Sub Contribution' tab of the 'Contribution' window for 'Meeting 1'. The window has a title bar 'Event Meeting 1' and a subtitle bar 'Contribution Contribution 1'. The 'Sub Contribution' tab is selected, with other tabs being 'Main', 'Access Control', and 'Tools'. The main area contains the following fields and controls:

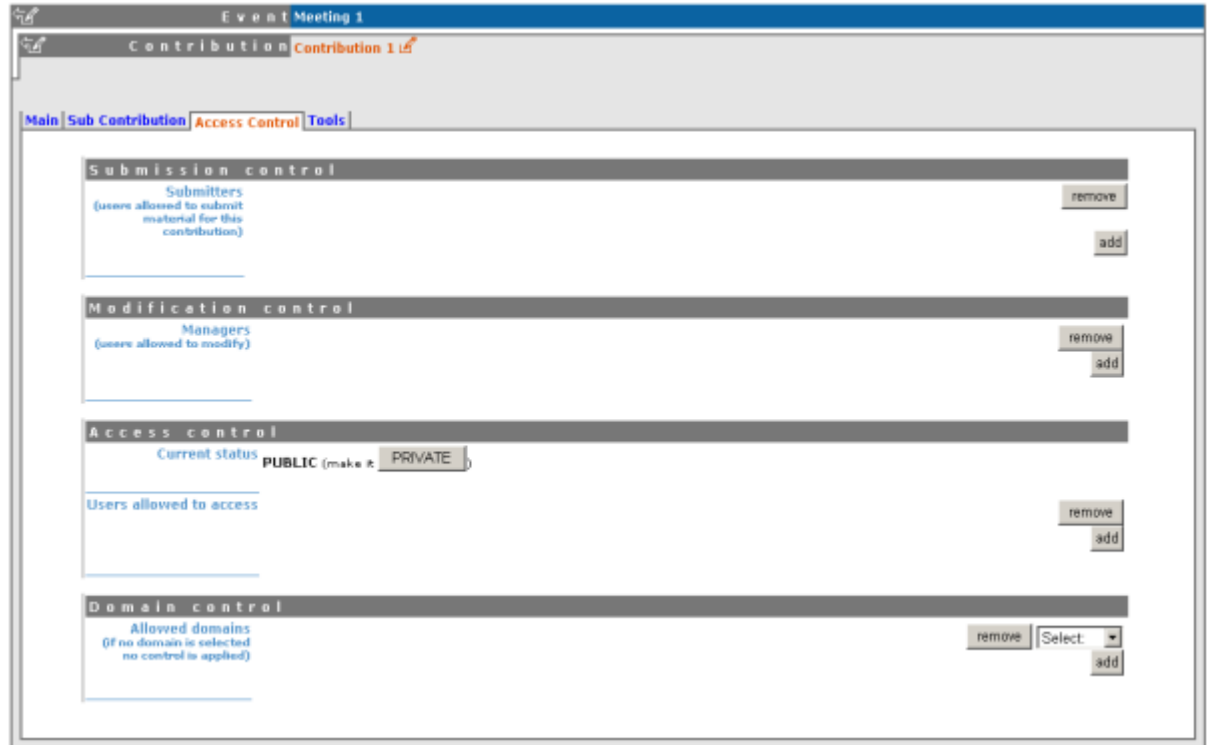

- Sub Contribution**: A text input field.
- Priority**: A dropdown menu showing '1'.
- Sub Contribution 1**: A text input field.
- remove selected**: A button.
- add sub contribution**: A button.

Clicking on a sub contribution name will take you to the modification area for the sub contribution (See Sub Contributions). You can also change the order of the sub contributions using the drop down priority

list.

3.3.2.4.3. Access Control Tab

From access control you can add/remove users that are allowed to access, modify or submit into your contributions you can also choose to make your contribution private.

Submission Control List the users or groups that can submit material into the contributions (See Material).

Modification Control List the users or groups that can Modify the contributions

Access Control Make the contribution Public or Private, If Public: Any user can view the contributions. If Private: Only users listed in the access / modification / submission control can access the contribution.

Domain Control List the domains that can access the contribution (only available if contribution is public)

3.3.2.4.4. Tools Tab

From the tools tab you have the option to delete, move or write minutes for the contribution.

3.3.2.4.5. Sub Contributions

Sub Contributions can be added to contributions to organise the contribution further, they can be access from the 'sub contributions tab in each contribution (See sub contribution Tab).

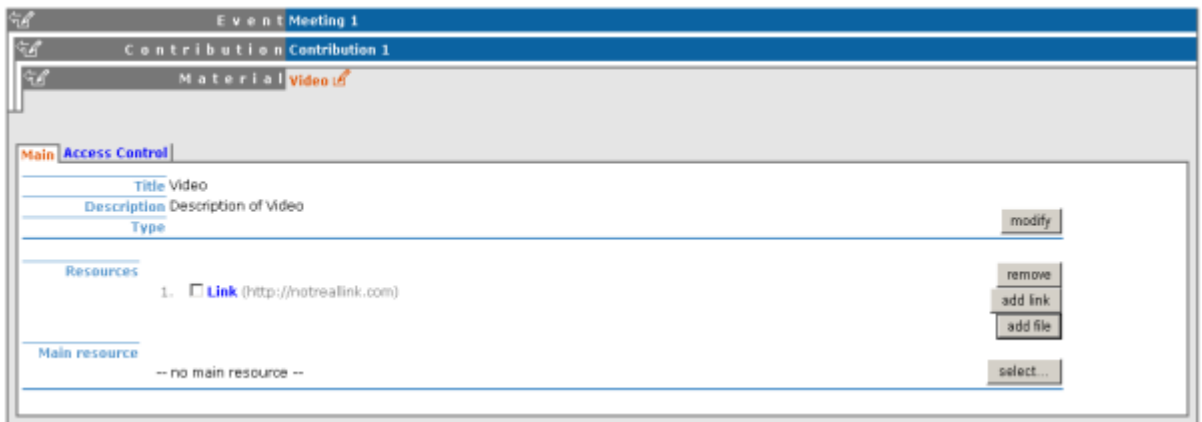

From inside each sub contribution you can modify the general details, add or remove presenters and attach material the same as you can for contributions. From the Tools tab in a sub contribution you can delete that sub contribution or write the minutes for it, these will be attached to the material for the sub contribution.

3.3.2.4.6. Material in Contributions

You can add a variety of different materials to contributions, by choosing the type you want and clicking on add, however you can only add one of each type of material but within these types you can add files or links.

You can then enter the name and Description of the material. Once added you have the options to add links or files to your material, one of these files/links can be classed as the main resource. You also have an access control tab within the material for you to control who has access to view the material.

3.3.3. Access Control Management

Access Control in a meeting is the same as that in a Conference. There is Modification control, Domain Control and Access Control. When adding to the Access and Modification lists, you can also add Groups of users if any have been defined by Administration.

Modification Control Only the managers listed in the modification control, the creator of the meeting and any administrators can access the Management Area of the meeting. However you can add a Modification Key which means anyone with this key can modify the meeting without logging in.

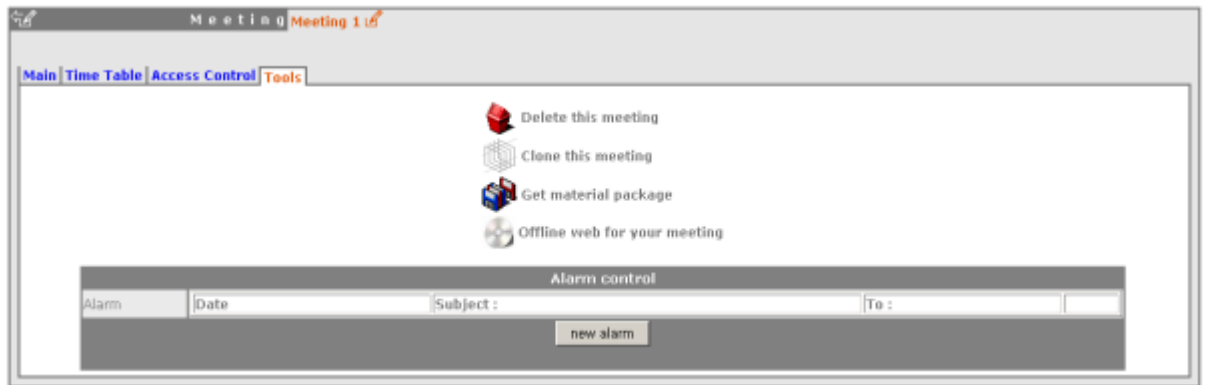

Access Control When the meeting is public - Anyone can view the meeting including the programme, timetable, abstracts etc. When the meeting is private - Only those in the access list, meeting managers and administrators can view the meeting.

When private you can also add an Access Key which means anyone with this key can access the meeting without logging in.

Domain Control This is not available when the meeting is private, but when it is available it allows you to specify which IP addresses can access the meeting.

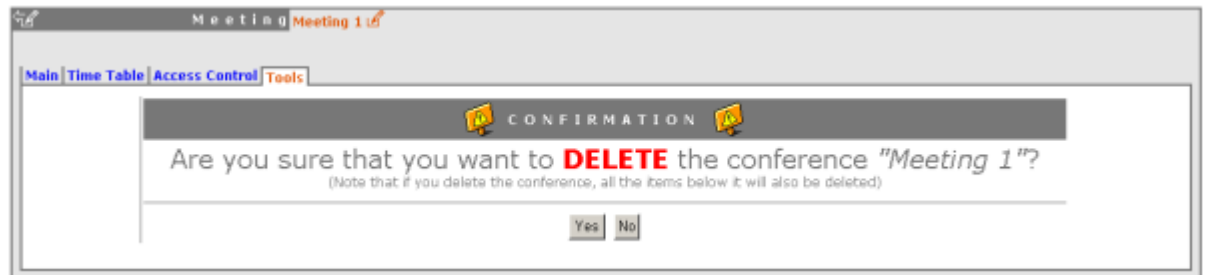

3.3.4. Tools Management

The meeting Tools allow you to make certain actions on the whole of the meeting.

3.3.4.1. Deleting a Meeting

The delete meeting option will delete the whole meeting. You will be asked to confirm deletion first.

3.3.4.2. Cloning a Meeting

Clone the meeting if you would like to make another meeting the same, you have the option to clone it just once, at fixed intervals or on certain dates.

Meeting Meeting 1

Main Time Table Access Control Tools

Clone the conference : Meeting 1

Clone the conference only once at the specified date:

once: 01 January 1995 clone once

Clone the conference with a fixed interval:

every: 1 day(s)

starting: 01 January 1995

☒ until: 01 January 1995 (inclusive) clone with interval

☐ 1 time(s)

Clone the agenda on given days:

on the: first Monday every 1 month(s)

starting: 01 January 1995

☒ until: 01 January 1995 (inclusive) clone given days

☐ 1 time(s)

cancel

3.3.4.3. Packaging Material

Using the 'Get material package' option you can create a package of all the materials that have been used in the meeting.

Meeting Meeting 1

Main Time Table Access Control Tools

Get package

Contributions scheduled on:

☒ 01 February 2005

☒ 02 February 2005

☒ Papers

☒ Slides

Main Resource

☐ Get only main resources from each material

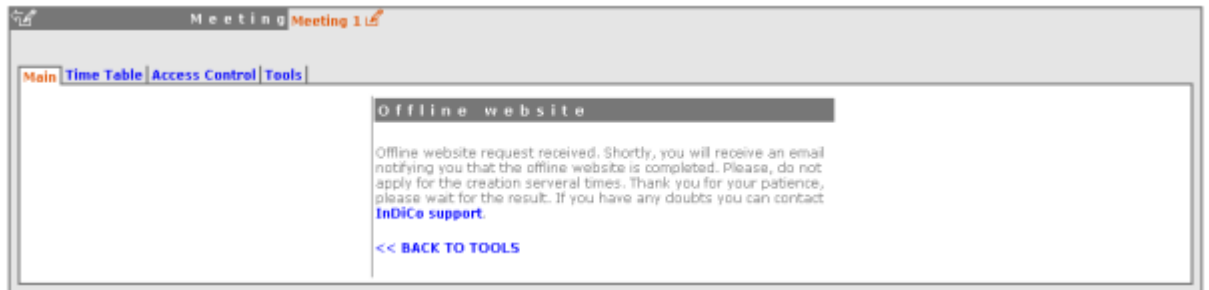

Get material...

from dd - mm - yyyy until now

get package << back to tools

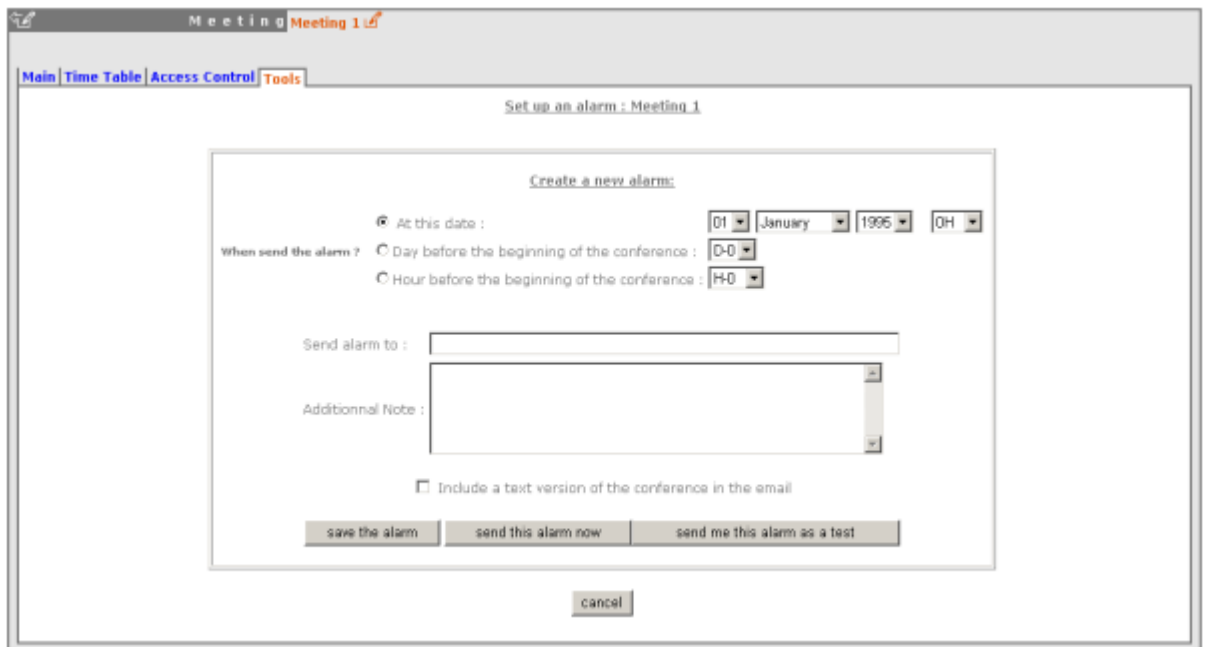

3.3.4.4. Create an Offline version of a Meeting

Using the 'Offline web for your meeting' option you can create a copy of your meeting that can be used offline for example if you wish to store your meeting to a dvd.

3.3.4.5. Alarm Control

You can set an an alarm / reminder to alert people about the meeting, the alert will be in the form of an email.

This Meeting Management Area explained can only be accessed by Administrators or Meeting Managers.

3.4. Meeting Management Displays

Using the icon  as mentioned in the Management Area, you can display the item you are currently modifying, this applies to material, sessions, contributions, sub contributions and the actual meeting. The actual meeting display is what the user will be able to see when they access the meeting (See Meeting Display Area).

3.4.1. Material Display

When going into the material display from the management area you will be shown all the links and files that have been added to the material along with any details of the material.

If you have only one resource added it will open that resource, i.e if you have added just one url link when you try to access the material display it will take you to that url. This Material Display can also be viewed from the Meeting Display Area that the user will see when viewing your meeting.

3.4.2. Session Display

When going into the session display from the management area you will be shown all the contributions and breaks that have been added to the session.

You can click on items within the contribution display to proceed to the management displays for those items, i.e. the session it belongs to or any subcontributions that are under it.

3.4.4. SubContribution Display

When going into the sub contribution display from the management area you will be shown all the details of the sub contribution and also which contribution this sub contribution belongs to.

Any items in the Meeting Management Displays which have the modification icon  displayed next to them allows you to go into the management area for that item.

3.5. Meeting Display Area

The Meeting Display is the view that users of the meeting will see. If the meeting is public they will not need to login to view the meeting. It is also the area in which you can access the modification areas if you have access rights. There are various views in which the meeting can be displayed, the following sections show the different views and displays of the different parts of a meeting. If you have access rights to view any parts of the meeting you can do so by clicking on their name, for example material (See material Display).

3.5.1. Indico Style

This is the default view for meetings in Indico. If you have modification rights to any parts in the meeting you will see the modification icon  which will take you to the management area for that item.

08:00	
	[3] Contribution 3 (Meeting Room 1: 08:00 - 08:20)

Chapter 4. Lectures

4.1. Lecture

A Lecture is the simplest of events within Indico. A Lecture allows you to add material, give details about the lecture and set the access control. You also have Tools in which you can remove, clone, create offline versions of the lecture and set alarms.

4.2. Creating a Lecture

If you have the correct access rights within a Category you can create a new lecture using the 'Lecture' option in the Tools menu, you will be presented with a form similar to the one you would for a Meeting, you are able to choose the default style in which the Lecture will be displayed (See Lecture Display) when you submit this form the Lecture will be created.

4.3. Lecture Management Area

The Management Area allows you to control the different parts of your lecture the following sections will show each area of the Lecture Management.

4.3.1. Main Management

From the Main tab, you are able to modify the details of the lecture including title, description, location, dates, chairpersons text and default style of the display.

From here you can also add any chairpersons, add or modify material (see Material) or close the lecture - closing the lecture will mean that it can no longer be accessed.

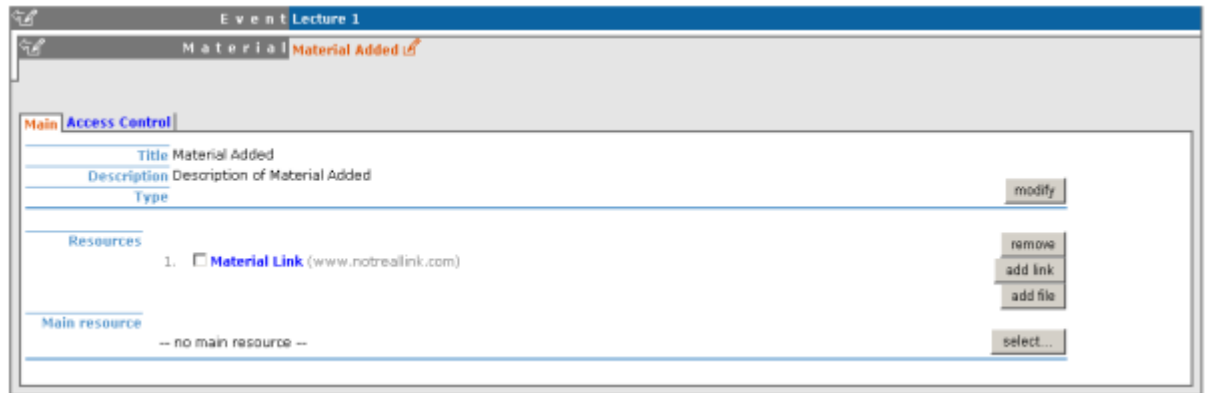

The frames surrounding each management area, give you access to either the modification area above or to a display of that area.

Clicking on the left hand icon  will take you to the management display area for the area you are on, e.g. material (See Material Display).

4.3.1.1. Material

You can add material to the lecture, by using the 'add' option in the material section, you can then enter the name and description of the material.

Once added you have the options to add links or files to your material, one of these files/links can be classed as the main resource. You also have an access control tab within the material for you to control who has access to view the material.

4.3.2. Access Control Management

Access Control in a lecture is the same as that in a Meeting. There is Modification control, Domain Control and Access Control. When adding to the Access and Modification lists, you can also add Groups of users if any have been defined by Administration.

Modification Control Only the managers listed in the modification control, the creator of the lecture and any administrators can access the Management Area of the lecture. However you can add a Modification Key which means anyone with this key can modify the lecture without logging in.

Access Control When the lecture is public - Anyone can view the lecture . When the lecture is private - Only those in the access list, lecture managers and administrators can view the lecture.

When private you can also add an Access Key which means anyone with this key can access the lecture without logging in.

Domain Control This is not available when the lecture is private, but when it is available it allows you to specify which IP addresses can access the lecture.

4.3.3. Tools Management

The lecture Tools allow you to make certain actions on the whole of the lecture.

4.3.3.1. Deleting a Lecture

The delete lecture option will delete the whole lecture. You will be asked to confirm deletion first.

4.3.3.2. Cloning a Lecture

Clone the lecture if you would like to make another lecture the same, you have the option to clone it just once, at fixed intervals or on certain dates.

Lecture **Lecture 1**

Main **Access Control** **Tools**

Clone the conference : Lecture 1

Clone the conference only once at the specified date:

once: 01 January 1995

Clone the conference with a fixed interval:

every: 1 day(s)

starting: 01 January 1995

☒ until: 01 January 1996 (inclusive)

☐ 1 time(s)

Clone the agenda on given days:

on the: first Monday every 1 month(s)

starting: 01 January 1995

☒ until: 01 January 1996 (inclusive)

☐ 1 time(s)

4.3.3.3. Packaging Material

Using the 'Get material package' option you can create a package of all the materials that have been used in the lecture.

Lecture **Lecture 1**

Main **Access Control** **Tools**

Get package

Contributions scheduled on:

☒ 23 February 2005

Material type

☒ Papers

☒ Slides

Main Resource

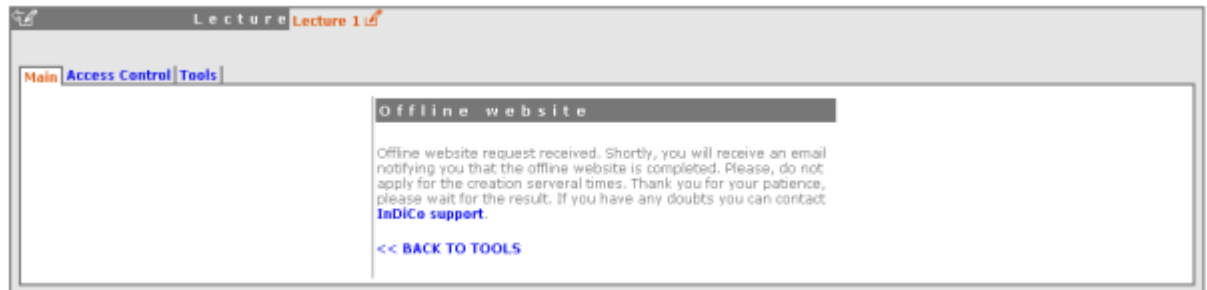

☐ Get only main resources from each material

Get material...

from dd - mm - yyyy until now

4.3.3.4. Create an Offline version of a Lecture

Using the 'Offline web for your lecture' option you can create a copy of your lecture that can be used offline for example if you wish to store your lecture to a dvd.

4.3.3.5. Alarm Control

You can set an an alarm / reminder to alert people about the lecture, the alert will be in the form of an email.

The screenshot shows a web interface titled 'Lecture Lecture 1' with tabs 'Main', 'Access Control', and 'Tools'. The 'Tools' tab is active, displaying a form titled 'Set up an alarm : Lecture 1'. Inside the form is a sub-section titled 'Create a new alarm:'. It contains the following elements:

- A radio button selected for 'At this date :', followed by dropdown menus for '01', 'January', '1995', and '0H'.
- Two unselected radio buttons: 'Day before the beginning of the conference : D-0' and 'Hour before the beginning of the conference : H-0'.
- A text input field labeled 'Send alarm to :'.
- A text area labeled 'Additional Note :'.
- An unchecked checkbox labeled 'Include a text version of the conference in the email'.
- Three buttons at the bottom: 'save the alarm', 'send this alarm now', and 'send me this alarm as a test'.

 Below the sub-section is a 'cancel' button.

This Lecture Management Area explained can only be accessed by Administrators or Lecture Managers.

4.4. Lecture Management Displays

Using the icon  as mentioned in the Management Area, you can display the item you are currently modifying, this applies to material and the actual lecture. The actual lecture display is what the user will be able to see when they access the lecture (See Lecture Display Area).

4.4.1. Material Display

When going into the material display from the management area you will be shown all the links and files that have been added to the material along with any details of the material.

If you have only one resource added it will open that resource, i.e if you have added just one url link when you try to access the material display it will take you to that url. This Material Display can also be viewed from the Lecture Display Area that the user will see when viewing your lecture.

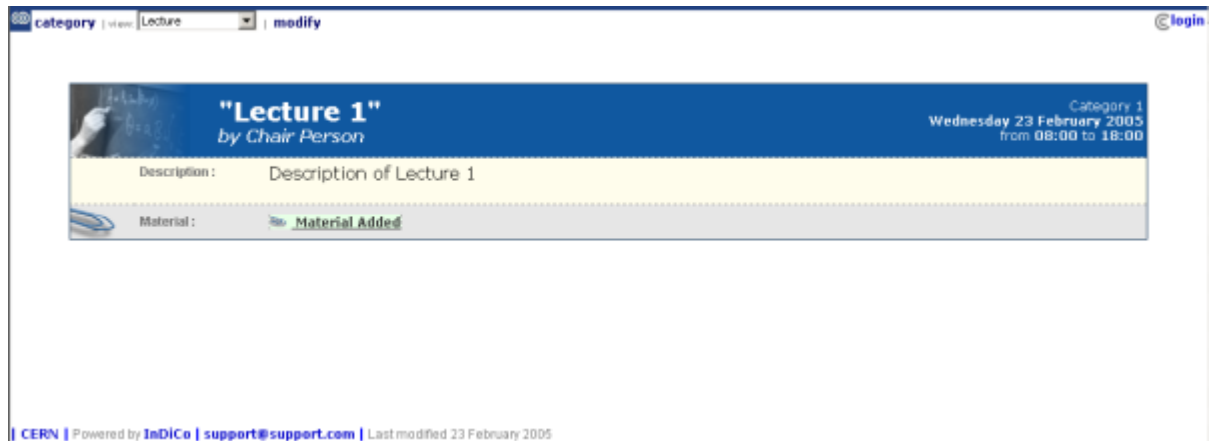

4.5. Lecture Display Area

The Lecture Display is the view that users of the lecture will see. If the lecture is public they will not need to login to view the lecture. It is also the area in which you can access the modification areas if you have access rights. There are various views in which the lecture can be displayed, the following sections show the different views and displays of the different parts of a lecture. If you have access rights to view any parts of the lecture you can do so by clicking on their name, for example material (See material Display).

4.5.1. Lecture Style

This is the default view for lectures in Indico. If you have modification rights to any parts in the lecture

you will see the modification icon  which will take you to the management area for that item.

4.5.2. IT Style

The IT style:

4.5.3. CDS Agenda Style

The CDS Agenda style:
